

PAOLA OBREGON GUILLERMO

SUMMARY

With 18 years old I have won the fifth place on the Reto Bursatil Actinver, where I have learned many skills such as how to work/move in the stock market. I consider myself a hardworking person that wants to keep growing and it's very optimistic about it. With all I have said, I considered myself with 1 year of experience, since I started working towards my goal this year, I am well prepared, and I will keep preparing for the next challenges.
